SUMMARY

Data Analyst with 1+ year of hands-on experience transforming raw business data into actionable insights using **Excel,Power BI, SQL, and Python**. Skilled in automating ETL pipelines, building dashboards, and delivering data-driven solutions that improved operational performance and revenue. Adept at using **Odoo ERP, Snowflake, and Power Query** to streamline workflows and support decision-making across sales, HR, and marketing domains.

PROFESSIONAL EXPERIENCE

Data Analyst May 2025 – Present | Cairo
Aloyayri

- Automated daily ETL from **Odoo ERP** into **Excel** and **Power BI**, consolidating data from multiple branches (~20 K+ records/day), improving reporting accuracy and reducing manual work by **30%**.
- Built **6 standardized dashboards** and **12 scheduled reports** for sales and finance teams, enabling better visibility into KPIs and helping drive a **15% increase** in product revenue.
- Developed analytical models in DAX and Power Query to track profitability and performance by SKU, customer, and region.
- Partnered with sales and operations managers to interpret insights, leading to improved stock planning and faster decision cycles.

Power BI Engineer Intern Apr 2024 – Sep 2024 | Remote
Digital Egypt Pioneers Initiative (DEPI)

- Designed and deployed **interactive Power BI reports** integrating Excel, SQL, and ERP data sources to support data-driven decision-making.
- Created calculated **DAX measures** such as Net Sales, Profit, and Target Achievement for performance tracking.
- Collaborated in a team of analysts to clean and transform data in **Power Query**, ensuring data integrity across multiple datasets.
- Presented insights and dashboards to mentors and stakeholders, enhancing storytelling and business communication skills.

EDUCATION

B.Sc. in Computer Science — Beni Suef University Oct 2020 – Jul 2024

- **GPA:** 3.0
- **Graduation Project:** Excellent (A+)

TECHNICAL SKILLS

- SQL (Structured Query Language)
- Excel,Google sheets
- Python (Pandas, Numpy, matplotlib, seaborn)
- Odoo ERP
- Data Visualization Tools (Power BI, Tableau)
- Data Cleaning and Preparation
- Basics of Cloud Computing
- Dashboard Design

PROJECTS

Sales Performance Analysis and E-Commerce

- Modeled and transformed sales data in **Snowflake** using **Power Query** and **DAX**.
- Built automated **Power BI dashboards** to analyze performance and pricing trends.
- Identified growth gaps and strategies that led to a **15% increase in revenue**.

Customer Churn Analysis

- Designed a **Snowflake data model** and applied **SQL** queries for churn prediction.
- Visualized key retention metrics in **Power BI**, highlighting at-risk customer segments.
- Proposed actionable retention strategies, improving potential retention by **8%**.

HR Analytics Employee Attrition & Performance

- Modeled HR datasets using a **star schema** to improve query efficiency and scalability.
- Integrated the model into **Power BI** dashboards visualizing KPIs on performance, satisfaction, and attrition.
- Delivered insights that supported a **5% improvement in employee retention**.

COURSES & CERTIFICATES

- Data Analysis in Excel (Data camp)
- Business Intelligence Professional Certifcate (Google)
- SQL Intermediate (Hacker rank)
- Data Modeling in Power BI (Data Camp)
- Intermediate Python (Data Camp)
- Building Reports using Power BI (365 data science)
- Data Analysis with Python (freeCodeCamp)
- Data Analysis Challenger Track (Udacity)

SOFT SKILLS

- Analytical Thinking
- Communication
- Problem Solving
- Continuous learning
- Research skills
- Attention to Details
- Team Collaboration
